JAMB CONDUCTS 2022 FOREIGN UTME

The Joint Admissions and Matriculation Board (JAMB) on Saturday 28th May, 2022 conducted the 2022 Foreign UTME. The exercise which took place in five out of the Board's nine foreign centres was a complete success. The centres where the examination was held include: Accra, Ghana; Johannesburg, South Africa; Buea, Cameroun, Abidjan, Cote d' Ivoire and Cotonou, Benin Republic. However, the 2022 Foreign UTME would take place at the other four centres in due course. The centres where the exercise would commence hereafter include: Berlin, Germany; London, United

Kingdom; Jeddah, Kingdom of Saudi Arabia and New York, United States of America.

Foreign UTME is part of the largesse of the Board towards providing succour to foreign candidates who signaled interest to attend Nigerian tertiary institutions during the coming academic year. International policy of the Board on test administration aims at attracting more foreign candidates to the nation's tertiary institutions and the policy has been yielding positive results in recent times, going by the number of candidates applying to sit the examination yearly.

MY VISION FOR SA'ADATU RIMI COLLEGE OF EDUCATION - PROVOST

...Says Prof. Oloyede is An Icon

Prof. Yahaya Isa Bunkure, Provost, Sa'adatu Rimi College of Education, Kano.

Provost, Sa'adatu Rimi College of Education, Kano, Prof. Yahaya Isa Bunkure is a man of many parts. He is an astute academic, a seasoned administrator and a holder of the highly-revered title of Makama Rano (a king maker) of the Kano emirate.

In the interview with the JAMBULLETIN, the Provost bared his mind on his desire to build a mega Computer-Based Test Centre (CBT) for the College before the expiration of his tenure in order to transit the conduct of the College examinations from Paper-Pencil Test (PPT) administration to CBT. He also praised JAMB Management for the unprecedented transformation of the Board and its contributions towards educational advancement under Prof. Is-haq Oloyede's led administration while describing the Registrar as an icon.

While fielding questions on where he intends to take the College in the next few years, the soft-spoken and articulate Provost said, "My vision is to make Sa'adatu Rimi College of Education a world-class citadel of learning and a centre of excellence and we are moving towards that, and as you may be aware, we have programmes in different subjects areas. We are a College of

Education and at the same time, a Mini University and, as such, we run degree programmes because we are affiliated to Ahmadu Bello University, Zaria and Bayero University, Kano."

Continuing, the Provost said, "Our products compete favourably with their peers in other Nigerian tertiary institutions as well as their counterparts outside the country."

The Makama Rano also expressed his undaunted stand on the 40th Anniversary of the College. He said the occasion was organised to showcase the modest achievements of the College under his leadership. These, according to him, included infrastructural development, welfare, training and retraining of staff, improved relationship between the College and other tertiary institutions within and outside the country, among others.

In that stance, the Provost noted that the College was in partnership with tertiary institutions in Europe, France, Egypt and Turkey in a bid to improve the quality of its services.

He pointed out that stakeholders, particularly past Provosts graced the event and that had afforded the College the opportunity to take stock and re-strategised with a view to taking the institution to a greater heights.

Inquiring on the plan of the College towards embracing CBT in the conduct of its internal examinations, Prof. Bunkure underscored the importance of electronic media examination, stating that arrangements were in top gear to upgrade the institution's existing CBT centre to a mega centre, as such, all the

College examinations would be deployed in CBT mode in the future.

The University Don also commended JAMB Registrar, Prof. Is-haq Oloyede on his exploits at leveraging on technology to tackle all forms of malpractices before, during and after the conduct of the Board's examination. He stated that from all indications, miracle centres had largely gone into extinction just as cases of examination malpractices had plummeted.

Speaking further, he noted that JAMB, under the leadership of Prof. Oloyede has been doing all that is needed to restore the public confidence in the conduct of the Board's entrance examination and, indeed, the entire tertiary education system in the country.

He said, "Prof. Oloyede has done a lot for JAMB and, by extension, the good people of Nigeria. He is an icon who has achieved a lot of commendable attainments. His contributions to the nation's educational development and economy are obvious. One can see the interconnectivity between the economy and education under his leadership in JAMB. To progress as a nation, we need sound economy and without a sound education system, our institutions would not be able to produce sound products that would drive the economy. Oloyede in JAMB has been marrying education with economy for nation building"

It is against this backdrop that the unflinching feats of Prof. Oloyede were rated especially in terms of his prudent management of human and material resources, zero tolerance for corruption and sharp practices.

ZONAL DIRECTOR COMMENDS STAFF ON A SUCCESSFUL UTME

The Zonal Director, Maiduguri, Mr. Sunday Aladegbaye, has commended staff of the Yobe State Office for the successful conduct of the 2022 Unified Tertiary Matriculation Examination (UTME).

Mr. Aladegbaye gave this commendation on Monday, 23rd May, 2022, during his post-examination assessment visit to the Damaturu Office.

While commending the staff for their untiring efforts that led to the successes recorded in the 2022 examination in the State in spite of daunting challenges, the

Zonal Director charged them to continue to put in their best and refrain from any action that could be detrimental to the good name they have built for the Yobe State Office.

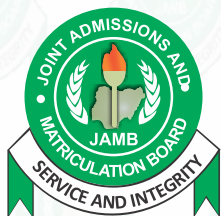

He said, "Your dedication to your duties as staff of JAMB is exemplary and I enjoin you to continue in that regard. Always work in harmony and put the interest of the Board above all other considerations."

In his welcome address, the State Coordinator, Mr. Mohammed Umaru Mohammed, thanked the Zonal Director for his auspicious visit noting that such

visit had the potential to spur staff to give their best.

FEW FACTS ABOUT JAMB

- ❁ The Joint Admissions and Matriculation Board (JAMB) was established for the general control of the conduct of matriculation examinations for admissions into all universities, polytechnics, monotechnics, colleges of education and (recently added) Innovation Enterprise Institutes (IEIs).
- ❁ Section 5 (2)of the ACT establishing the Board provided as stated: For the avoidance of doubt, the Board shall be responsible for determining matriculation requirements and conducting examinations leading to undergraduate admissions and also for admissions to National Diploma and the Nigerian Certificate in Education courses, but shall not be responsible for examinations or any other selective process for postgraduate courses and any other courses offered by the tertiary institutions. In the implementation of this section, there is always a synergy with the National Universities Commission(NUC), the National Board for Technical Education(NBTE) and the National Commission for Colleges of Education(NCCE) with the endorsement of the National Council on Education(NCE).
- ❁ In exercising this power, the Board is always guided by admission guidelines approved by the Policy Meeting under the Chairmanship of the Hon. Minister of Education with all Heads of Tertiary Institutions and other stakeholders in attendance.
- ❁ Since the inception of the Interim Joint Matriculation Board Examination (IJMBE), JAMB appoints moderators for all its questions as well as the grading of candidates scores. It has always done this without failing to still accommodate 'HSC' within the current 6-3-3-4 system. The National Council on Education(NCE) guidelines for the Joint Universities Preliminary Examinations Board (JUPEB) also endorsed the practice for JUPEB.
- ❁ The Joint Admissions and Matriculation Board shall continue to operate within its laws.

paper aptly titled: "How to Handle Bad Press, Poor Publicity and PR Crisis." Maj. General Olukolade, who is also the Chairman of the Board of Crisis Communications in Nigeria, said that as representatives of the Board, PROs should always be abreast of the activities of their organisation as they could always be called upon at any time to speak on its behalf and as such should not be caught unawares.

He said, "A good PR officer, should be a bridge between the public and the organisation. You need to always do proper research about your organisation and your target audience, be observant to the trends, analyse them for possible crisis and advise your organisation accordingly in order to be ahead of any crisis before it erupts.

He said, "Crisis would always come. However, the key to effectively managing any crisis, lies behind the strategy one uses to handle such before, during and even after the crisis."

In a similar vein, the Director, Media and Publicity, State House, Abuja, Mr. Abidoun Oladunjoye, explained that as PR officers, every message that is released from the organisation must be sellable and capable of satisfying the

expectations of the target audience.

He praised the Board and its image makers for the timely and accurate response to the needs of candidates especially with regard to necessary information about Board's services.

Mr. Oladunjoye praised the Board in particular for promptly debunking the false information which was circulated on various media platforms at a particular point in time that the Board had cancelled its just-concluded 2022 UTME resu, calling it a display of exceptional PR professionalism. He encouraged participants to have adequate knowledge of their organisation as they are marketers of their organisation.

He said, "There is need to develop oneself constantly, take courses, as well as attend seminars and workshops as how you develop yourself would be your selling point." He praised the Prof. Is-haq Oloyede-led leadership of the Board for organising the training for its PR officers.

The Registrar, who was represented on the occasion by the Director, Legal Services Department, Dr. Abdul Wahab Oyedokun, said the PRO Unit is required to play a critical role in the day-to-day administration of any organisation. He added that PROs are to create the right

conversation, act as purveyor of information to the public and as a feedback channel. He pointed out that it is not only cost effective but also very important for an organisation to improve the capacity of its PR officers to position them to represent it well as well as robustly promote its activities.

Earlier in an address of welcome, the Head, Public Affairs and Protocol Unit, (PAP), Dr. Fabian Benjamin, said the Board had achieved many of its PR successes through networking and leveraging on various media platforms as well as its ability to foster healthy and meaningful interaction with the general public. He enjoined the participants to take full advantage of the opportunity provided by the training to improve on their professional acumen.

The workshop also featured other presentations, among which were: "Understanding the Changing Media and Audience Ecosystem - the Old vs the New" by the Head, Mass Communication Department, Baze University, Abuja, and the "The Power of the Social Media in Media Management" by veteran journalist and Managing Director, Premium Times, Mr Mojeed Musikilu among others.

ADVISORY TO INSTITUTIONS ON HOW TO HANDLE THE CONDONEMENT OF UNDISCLOSED ILLEGAL INSTITUTIONAL ADMISSIONS (CUIIA)

(ADMISSIONS CONDUCTED OUTSIDE CAPS 2017-2020)

The Board introduced the Central Admissions Processing System (CAPS) in 2017 as the transparent platform for all admissions. Regrettably, some of the institutions continued to admit some, indeed large number of candidates (undisclosed to JAMB), thereby jeopardizing the interest of such candidates admitted through under-the-table deals. Recent events made the candidates protest the disadvantages of such non-disclosure and lack of formal recognition of their degrees. Such Institutions are now being compelled by necessity to confess their past deeds of undisclosed admission.

This Advisory is to guide the affected institutions on how the candidates can be rescued:

- i. The institutions should first and foremost declare the number of candidates admitted outside CAPS by sending a formal letter of confession and disclosure (LCD) to the Registrar of JAMB.
- ii. The letter of confession and disclosure should have the list of candidates attached. A copy of the letter and the list of candidates should be sent to JAMB state office where the institution is located. The list and total number of affected candidates for each year of admission should be clearly specified with the Programme (i.e Course of Study).
- iii. If the Board upon receiving the letter (and after due scrutiny and investigations) grants approval, the institution shall be contacted within 2 weeks of acknowledged receipt of the LCD.
- iv. The portal is then opened for the Institution to upload the list of candidates already submitted.
- v. The System checks for application that has previous record with the Board.
- vi. The purpose of the check is to see if the record of a new application matches any other existing application on the system. If after the check, it is established to be the same applicant, the System would perform a second check on the dates of birth in both the new application and the existing record with the Board.
- viii. If the two (2) dates of birth match, the System would allow the application go and push it to CAPS for further processing.
- ix. If the two (2) dates of birth differ, the System would flag the application and send a message to the applicant that "your application would be rejected because of incompatible records."
- x. The System will thereafter push the application to CAPS along with the flagged message and also call the attention of the Desk Officer on CAPS not to approve the application because of incompatible records, which forms the basis of rejection by the Desk Officer processing the application on CAPS.
- xi. The letter of approval from JAMB to the institution and the uploaded list shall contain the following:
 - the academic year for which the retroactive approval is granted;
 - total number of candidates, and
 - the period of grace (not exceeding 60 days) within which the affected candidates must complete the process of Condonement of Undisclosed Illegal Institutional Admission (CUIIA). Only the candidates declared by the institutions are to visit JAMB office and complete the appropriate form online after paying the prescribed fee (i.e) the application fee of N4,000 only is paid by those without JAMB Registration number for the year and N5,000 penalty paid by every candidate involved.
- xii. The records of the candidates shall then be made available on CAPS after they have completed the online process.
- xiii. The Admission Officer of the Institution shall retroactively propose formally the candidates to the Head of Institution who in turn shall recommend the candidates within the specified time.
- xiv. The JAMB Desk officer too, shall retroactively approve the candidates on CAPS within the original list submitted by the institution. After approval, the previously illegal students will be able to print their JAMB admission letters from e-facility on JAMB Portal.
- xv. It should be noted that the admission letter would henceforth carry the date of the retroactive approval and not backdated to protect the Board's integrity of the data it might have provided before the condonement. The admission letter would also be named "Retroactive Letter of Admission" to reflect the correct history of the admission.
- xvi. Please NOTE that only candidates on the list declared by the institutions shall be attended to at the JAMB office. The Board shall not extend the period of grace granted to each institution. Any candidate that does not complete the process within the allotted (maximum two months) grace - period loses the remedial opportunity.
