"OLOYEDE IS A GIFT TO NIGERIA" - FORMER EDUCATION MINISTER ...Supports Adamu On Virtual Learning And Laments Failure Of "One Laptop per Child Initiative".

■ Mrs. Chinwe Nora Obaji, Former Minister of Education.

Former Minister of Education, Mrs. Chinwe Nora Obaji, has joined other Nigerians to pass encomiums on the Registrar, Joint Admissions and Matriculation Board (JAMB), for the successful conclusion of the just-concluded 2020 Unified Tertiary Matriculation Examination (UTME) as well as the great changes he had wrought in the

operational processes of the Board.

The Former Minister described the Registrar, Prof. Is-haq Oloyede, as "a gift to the nation" and called on well-meaning Nigerians to support the indefatigable transformer in his bid to turn around the fortunes of JAMB and the educational sector as a whole.

Mrs. Obaji gave this assessment in a telephone

COVID-19: JAMB TICKETING SYSTEM TO THE RESCUE

The Joint Admissions and Matriculation Board has taken full advantage of technology, particularly as related to the institution of a ticketing platform, to address candidates' enquiries during this period of lockdown as over four thousand cases have been adequately resolved without any physical contact between staff and candidates.

The introduction of the ticketing system in 2018 was to address the challenge of candidates crowding the Board's offices, engender transparency by way of tracking complaints, provide conducive atmosphere for candidates seeking corrections or amendments of data and, above all, ensure that genuine and necessary feedback are easily obtained from candidates for planning.

Before the ticketing regime, candidates thronged the offices of the Board for almost all complaints while some send letters which might not get to the Board. However, with the ticketing regime, all a complainant or enquirer needs do is to visit support.jamb.gov.ng to state his/her complaints and a number would be assigned to

...JAMB provides personal protective equipment, other medical items to health workers at the General Hospital, Bwari

Latex Gloves, Face Mask(Agiary), Omron Nebulizer Compressor and Bakson Hand Sanitizers. Other items were Ocean Med England Infusion Pump, Edan Patient Monitor(IM70), 3m Alura Face Mask N95, Neogloves Surgical Gloves and Du Point Protective Gloves(PPG).

Earlier, the Board had donated two ventilators, to the University of Abuja Teaching Hospital, Gwagwalada and one small ventilator to the Bwari General hospital, the host community of the Board.

The three ventilators were procured at a total cost of eleven million naira only with the big ventilator costing five million naira while the small ones costing three million naira each.

The donation of these PPE, medical items and the ventilators would give the hospitals the high ground in attending to their patients during this period of COVID-19 global challenge.

It would be recalled that the Governing Board of the Joint Admissions and Matriculation Board, under the chairmanship of Dr.Emmanuel Ndukwe, had earlier held a virtual meeting on Friday, 3rd April 2020, and took far-reaching decisions on how to give further support to the Presidential Task Force on COVID-19.

... "Oloyede is a gift to Nigeria" - Former Education Minister

interview with JAMBulletin on Friday, 9th April, 2020.

According to the former Minister, the 2020 UTME witnessed tremendous improvements when compared to previous ones. She, however, attributed the successes recorded to the series of innovations put in place by the Board such as the conclusion of the exercise within the space of one week devoid of any serious technical hitches, thorough supervision, the negligible cases of examination infractions, prompt release of results as well as the optimal use of technology, among others.

Mrs. Obaji said, "I'm trying to be modest, but I must say that Prof. Oloyede is a gift to Nigeria and we should all continue to support him so that he will continue to record more success stories. I also commend his avowed determination to reduce incidence of examination malpractice to the barest minimum through bringing perpetrators to book. Furthermore, the Board, under the administration of the Registrar has remitted humongous amount of money running into billions of naira into the Federal coffers. Similarly, the Registrar spearheaded the donations of ventilators and other medical interventions to some hospitals including the hospital in the Board's host community to complement the fight against COVID-19 pandemic as part of its Corporate Social Responsibility (CSR). Other achievements of the Registrar is the automation of admissions into the nation's tertiary institutions through the Central Admissions Processing System (CAPS), a platform that had brought sanity, credibility, fairness and transparency in the admission process. It's also significant that every candidate now knows that there is no shortcut to success, as such, the era of "JAMB gave me this score" is over, you get what you deserved."

In a similar vein, Mrs. Obaji lent her voice to the call made by the Hon. Minister of Education, Malam Adamu Adamu, on the

need to embrace virtual learning in the face of the COVID-19 pandemic that necessitated the closing down of the nation's institutions at all levels.

According to Mrs. Obaji, "Nigeria has no choice other than to embrace e-learning as it is done in other climes. The challenges the country is experiencing in her bid to render quality education to her teeming youth population would have been overcome if the 'One Laptop Per Child Initiative' was not jettisoned midway. This wonderful initiative was conceived in 2005 when I held sway as the Minister of Education."

She also noted that similar gestures were abandoned citing the 'School Feeding Initiative' which she launched as a Minister in 2005 at Kuje, a suburb of the Federal Capital Territory. She, however, commended the President Buhari-led administration for reviving the laudable initiative.

The former Minister charged all stakeholders to give due attention to the needs of education as the Federal Government could not do it alone. Mrs. Obaji declared that all hands must be on deck to turn around the fortunes of the sector.

She opined that Nigeria should adopt the zeal and vigour at which she contained the Ebola virus and the current efforts aimed at containing the COVID-19 pandemic to tackle the various challenges bedeviling the educational sector in the country.

In her words, "If we had sustained the 'One Laptop Per Child Initiative', by now virtual learning would have been integrated into the curriculum and students and teachers would have been adequately grounded in e-learning by now."

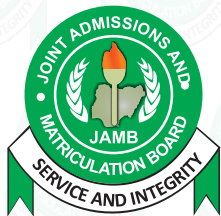

"The initiative entailed deploying laptops to all JSS 1 students across the country. At that time, those laptops were being offered to us at the rate of \$100 each and, at the exchange rate of N120 to one dollar, each laptop would be procured at the rate of N12,000."

On the institution of the controversial Post-UTME, the former Minister who had taught for over two decades in tertiary institutions across the country, said its introduction was in line with relevant provisions of the instruments that set up the various tertiary institutions which empowers their Senates and Councils to determine their mode of selecting candidates in conjunction with JAMB with a view to selecting suitably-qualified candidates for admission. In addition, she stated that the more hurdles a candidate crosses, the better to guarantee the quality of intakes who would spearhead the nation's march to greatness. She said that the continued existence of Post-UTME would be determined by the continued exhibition of excellence as is being currently demonstrated by JAMB.

She commended JAMB for addressing some of the challenges that led to the introduction of Post-UTME in the first instance adding that many of these had been successfully addressed by the Board.

Commenting on the role played by her group, 'High Powered Opinion Leaders' in the success of the 2020 UTME, Mrs. Obaji said the Group which she chaired contributed immensely to the overall success of the examination as it offered numerous insights to achieve a seamless examination outcome and helping to checkmate incidence of examination malpractice among other measures.

The former Minister recalled how the Group had, in the just-concluded 2020 UTME, moved swiftly to prevent hiccups in the conduct of the examination as one of the Professional Test Centres, unknown to the Board, had already been marked for demolition by the authorities. She stated, however, that with the information made available to the Board, it swiftly provided alternative arrangements. She disclosed that this, and many others, were some of the inputs of the Group to the success recorded.

WHAT YOU NEED TO KNOW ABOUT COVID-19

WHAT IS COVID-19? COVID-19 is the infectious disease caused by the most recently discovered CORONAVIRUS. This new virus and disease were unknown before the outbreak began in Wuhan, China, in December 2019.

SYMPTOMS: The most common symptoms of COVID-19 are fever, tiredness, and dry cough. Some people may have aches and pains, nasal congestion, runny nose, sore throat or diarrhoea. These symptoms are usually mild and begin gradually. Some people become infected but don't develop any symptoms and don't feel unwell. Most people (about 80%) recover from the disease without needing special treatment. Around 1 out of every 6 people who gets COVID-19 becomes seriously ill and develops difficulty breathing. Older people, and those with underlying medical problems like high blood pressure, heart problems or diabetes, are more likely to develop serious illness. People with fever, cough and difficulty breathing should seek medical attention.

Illness due to COVID-19 infection is generally mild, especially for children and young adults.

HOW IS IT SPREAD? The virus that causes COVID-19 is mainly transmitted through droplets generated when an infected person coughs, sneezes, or speaks. **These droplets are too heavy to hang in the air. They quickly fall on floors or surfaces.**

The disease can spread from person to person through small droplets from the nose or mouth which are spread when a person with COVID-19 coughs or exhales. These droplets land on objects and surfaces around the person. Other people then catch COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth. This is why it is

important to stay more than 1 meter (3 feet) away from a person who is sick.

You can be infected by breathing in the virus if you are within 1 metre of a person who has COVID-19, or by touching a contaminated surface and then touching your eyes, nose or mouth before washing your hands.

PROTECTION MEASURES FOR EVERYONE

You can reduce your chances of being infected or spreading COVID-19 by taking some simple precautions:

- Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water.
- Maintain at least 1 metre (3 feet) distance between yourself and anyone who is coughing or sneezing. If you are too close, you can breathe in the droplets, including the COVID-19 virus if the person coughing has the disease.
- Avoid touching eyes, nose and mouth. As your hands touch many surfaces and can pick up viruses. Once contaminated, hands can transfer the virus to your eyes, nose or mouth.
- Make sure you, and the people around you, follow good respiratory hygiene. This means covering your mouth and nose with your bent elbow or tissue when you cough or sneeze. Then dispose of the used tissue

immediately.

- Stay home if you feel unwell. If you have a fever, cough and difficulty breathing, seek medical attention and call in advance.
- Self-isolate by staying at home if you begin to feel unwell, even with mild symptoms such as headache, low grade fever (37.3 C or above) and slight runny nose, until you recover. Avoiding contact with others and visits to medical facilities will allow these facilities to operate more effectively and help protect you and others from possible COVID-19 and other viruses.
- Only wear a mask if you are ill with COVID-19 symptoms (especially coughing) or looking after someone who may have COVID-19. Disposable face mask can only be used once. If you are not ill or looking after someone who is ill, then you are wasting a mask.

COVID-19 outbreaks can be contained and transmission stopped, as has been shown in China and some other countries. Unfortunately, new outbreaks can emerge rapidly.

If you think a surface may be infected, clean it with simple disinfectant to kill the virus and protect yourself and others. Clean your hands with an alcohol-based hand rub or wash them with soap and water. Avoid touching your eyes, mouth, or nose.

Please stay safe.

...COVID-19: JAMB Ticketing system to the rescue

him/her for ease of tracking of the complaint in case the complaint is not address at all or addressed satisfactorily. This is, however, a rare occurrence as all tickets are subjected to further scrutiny by higher authorities.

Furthermore, this platform aids safety of parties concerned as it conforms to the social distancing protocols even before it was globally embraced. It creates transparency and provides the Board the opportunity to track not only the official that resolved the complaint but also the time taken to do so. In addition, the system is provisioned with a reporting or an alarm system that alerts the Registrar/Chief Executive as to the status of any ticket raised and the action(s) taken on it as well as the actors involved.

It is highly gratifying to note that within the few days of the lockdown, over four thousand cases have been successfully resolved with each being resolved within

24 hours of receipt of such complaint or enquiry. This is because the staff of the Board are working from home to address all the needs of candidates as and when due.

Some of the complaints/enquiries received through the ticketing platform ranged from those asking as to when candidates are to start printing their original results slips to steps for changing programmes and institutions, among others.

Perhaps it would be expedient to state that the facility for change of programmes or institutions has been activated while results are ready for printing but these processes have been put on hold because the Presidential Directive mandating citizens to stay at home is still in force. As soon as the COVID-19 pandemic is over, the printing of result would be enabled.

The Board equally supports the Hon. Minister of Education's directive on online

learning aimed at ensuring the continuity of the learning curve. As such, the Board is doing all within its mandate to give full force to the directive.

Candidates are urged to visit the Board's website for all processes that do not require biometric verification. In this regard, they are enjoined to wait for the lifting of the restrictions on movement and social interactions to undertake those processes requiring biometric verification.

In addition, the Board has noted that some candidates have been offered admissions but are yet to accept or reject such offers. Consequently, candidates are advised to download the CAPS Mobile App on Android Playstores, Apple Store, among others, to check their admissions status and do the needful. As regards those candidates who had been offered admissions and had accepted, they can visit the institution for online registration and wait for further directives.
